

# Fitting Report for HY30

**Description:** HyCool 30, Potassium formate

**Source:** Technical Information. Hydro Chemicals, 2000.

**Temperature:** -30.0 °C to 50.0 °C

**Composition:** pure fluid

**Density:** coefficients to polynomial (2, 1)

**Spec. Heat:** coefficients to polynomial (2, 1)

**Th. Cond.:** equation to polynomial (4, 1)

**Viscosity:** equation to exponential (3,)

**Psat:** no information

**Tfreeze:** no information
